71. Standard Light fixtures in foyer, hallways, bedrooms, walk-in closets, bathrooms, den, media/recreation rooms, laundry areas, as per plan and pendants over island/peninsula

72. Capped ceiling outlet in dining area, as per plan
73. White Decora Style light switches and outlets throughout
74. Switched outlet in living room
75. Electrical receptacle below counter on peninsula/island
76. Weatherproof (GFI) receptacles. One each at front entry, rear entry, lower entry and terrace(s), as per plan
77. Automatic garage door opener with two remotes
78. 220-volt heavy duty wiring with receptacles for range and dryer
79. Electrical outlet for washing machine in laundry area
80. Electrical outlet for refrigerator in kitchen
81. Electric receptacle in garage and one for garage door opener
82. Electric car charging station rough-in located in the garage
83. Lighting at all exterior entry doors
84. Front door bell chime
85. High density polyethylene water lines with ABS drains and vents
86. Drain water heat recovery pipe (copper) installed in waste water stack in basement
87. Two Frost free hose bibs with shut off valves: one in garage; one at rear of building
88. All plumbing fixtures to have independent shut offs
89. Recessed "Oatey" box (or equivalent) in the laundry area for ease of connection of washing machine to water lines and drain
90. Dryer vent roughed-in to exterior

#### CONVENIENCE, SAFETY & SECURITY

91. 3 ethernet connections, 3 cable TV connections and 1 telephone land line outlet
92. Smoke and carbon monoxide detectors, as per Building Code
93. Central vacuum rough-in with connection in the garage and outlets located on each finished floor and unfinished basement

#### ENERGY EFFICIENT FEATURES

94. High efficiency forced air gas furnace. Location and orientation at Builder's discretion
95. Programmable thermostat centrally located on Ground floor at Builder's discretion
96. All supply and return metal ductwork joints throughout home to be sealed for better delivery of heated/conditioned air
97. Central air conditioning
98. Energy Recovery Ventilation (EVR)
99. Exhaust fans in all bathroom and laundry areas
100. High efficiency rental hot water tank. The Purchaser acknowledges the hot water tank is a rental unit and agrees to execute a rental agreement before closing with local supplier
101. All ducting to be cleaned upon completion

#### SUPERIOR QUALITY CONSTRUCTION

102. Wood and steel beam construction, as per plan
103. Engineered floor joist system for all subfloors, except landing
104. Sienna style, pressure treated rear deck, as per plan
105. All exterior doors, windows and building perforations to be foam insulated and fully caulked
106. Elevations featuring low maintenance exterior materials
107. State of the art roofing membrane with capped parapet walls
108. Prefinished scuppers, downpipes and capping
109. 5/8" tongue and groove, engineered state of the art OSB subfloors, nailed, glued and screwed to floor joists
110. Poured concrete basement walls with heavy duty damp proofing, weeping tiles and exterior drainage membrane
111. Poured concrete basement floor, front porch and garage floor
112. Poured front steps with an interlocking paver walkway from driveway to front entrance, as per plan
113. Precast concrete slabs and/or step(s) at rear doors, as per plan
114. Insulation includes: a minimum of R 22 batt in all exterior walls above grade; R31 insulation above garage ceiling; R20 full height basement blanket insulation on exterior walls

115. Exterior walls constructed with solid 2" x 6" wall assembly
116. Garage walls insulated with gas-proofing where required
117. Garage walls except masonry walls drywalled and paint ready
118. Premium waterproof system under floor and wall tiles for all bathtub/shower areas where ceramic tiles are installed
119. Walk out basements with 9' ceiling height. (Some ceiling areas may be lower due to mechanical, structural or decorative requirements, including dropped ceiling areas and bulkheads)
120. Rough-ins for: natural gas BBQ at rear of home and future 3-piece basement bathroom (waste pipes only)

#### DESIGN SELECTIONS

121. Interior design selections will be made from Richpark's samples, during a private appointment. At this time, you will also have the opportunity to consider and incorporate upgraded finishing touches to your gorgeous modern Richpark Home.

#### WARRANTY

122. Tarion Warranty Program: 7 years for major structural defects; 2 years for defects in workmanship and materials of electrical, plumbing, heating and building envelope; 1 year for defects in workmanship and materials
123. The Builder reserves the right to substitute suppliers and/or materials of equal or superior value and Purchaser agrees to accept same
124. All selections from Builder's samples, unless otherwise specified
125. Where the Purchaser is given a choice of materials, colours, items, etc. the Purchaser agrees to confirm such choices to the Builder within 14 days of being requested to do so, otherwise the Builder will make choices on behalf of the Purchaser who agrees to accept same
126. Variation in uniformity and colour from Builder's samples may occur in the finished material (Purchaser agrees to accept same)
127. The Builder is not responsible for shade difference occurring from different dye lots on all materials such as ceramic tile or broadloom, hardwood flooring, wood stairs, railing, kitchen cabinets, countertops or exterior materials. Colours and materials will be as close as possible to Builder's samples but not necessarily identical. Purchasers may be required to reselect colours and/or materials from the Builder's samples as a result of unavailability or discontinuation
128. All dimensions, measurements, and specifications are approximate and subject to normal construction variances and tolerances
129. Location of pot lights may vary subject to mechanical or framing restrictions
130. The Builder will enroll home in the Tarion New Home Warranty Program and Purchaser agrees to pay Tarion Enrollment Fee
131. Mechanical, plumbing and/or structural components will be boxed in with framing and drywall as required which may impact room dimensions
132. The Builder shall be entitled to reverse the floor plan of the unit being constructed in accordance with the Site Plan
133. The Purchaser acknowledges that door swings may be different than those indicated and agrees to accept swings as adjusted at the Builder's discretion
134. Actual usable floor space and square footage may vary from the stated floor area. Errors & Omissions Excepted.
135. The number and location of steps into/out of the home (including basement walk out, walk up) and inside the garage may vary due to grading conditions and municipal requirements. The Builder reserves the right to eliminate the door from the garage to the home if the grade difference exceeds three risers.
